Winter 2009 After School Art Classes Sponsored by the Carson Elementary PTSA

DRAWING

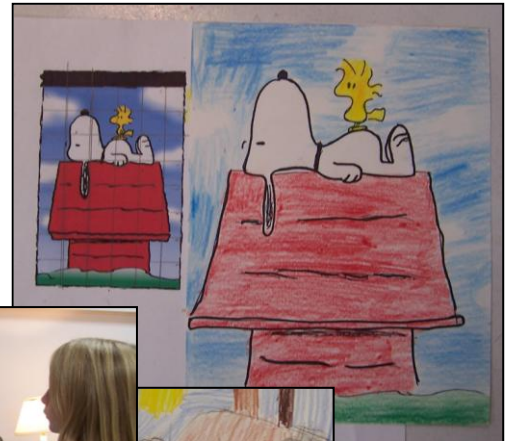

In a positive and supportive environment, a professional artist will teach young students the fundamentals of drawing while encouraging personal creative expression. Students will use a variety of drawing materials such as charcoal, oil & soft pastel, watercolor pencil, graphite and colored pencil. Projects specially developed for these age groups include exercises in proportion, composition, light source and perspective. Students will work from observation and pull imagery from their imaginations as they learn to develop their own artistic language. This fun-filled drawing class will send your young artist home with a head full of creativity and confidence!

Additional materials and projects are planned for Apr/May session.

CLAY & SCULPTURE

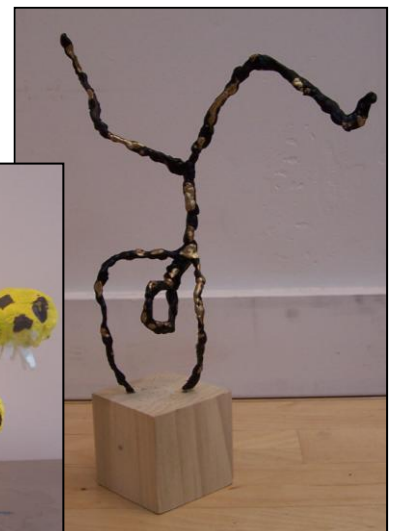

Students will learn basic sculpting and construction techniques as they explore the world of art in three dimensions! They will refine their observational and problem-solving skills while establishing a personal artistic process by discovering new ways of combining and applying materials. We'll take a look at 3D works by other artists, and make super fun sculptures out of a variety of materials including air-drying clay, paint, polymer clay, wire, board, found objects and plaster of Paris.

Stay tuned for Painting classes coming in Apr/May session!
